Chinese Lined With Gold.
The chimneys of the United States mint at Philadelphia are being scraped for gold and silver dust. With the work still unfinished, several hundred ounces of gold and silver have been sifted from the sweepings of the chimneys and other nooks and crannies of the big building at Sixteenth and Spring Garden streets. The metal has not yet been melted and weighed, so it is impossible to compute its exact value. Last year the value of the dust from the chimneys was \$21,240, an amount which will be exceeded this year, the authorities expect. The sweepings from the floor of the mint during the year netted more than \$50,000. Thousands of dollars were recovered by burning the clothes of the workmen and workwomen and separating the precious dust from the ashes.

Fight at Camp Meeting.
Two murders and the wounding of more than twenty men resulted from "Big Sunday" at Friendship camp meeting, held by the negroes of Delaware and the Eastern shore of Maryland in a large grove on the Chesapeake and Ohio Railway, near Smyrna, Del., yesterday. While frenzied and delirious women and children shrieked, filling the forest with high-pitched notes of terror, fifty revolvers cracked out along the railway, where the "men folks" had quit shooting crap long enough to shoot each other. In the dim light of torches and knives and razors gleamed, and the tally of injured in the riot emphasizes the negro's propensity for and dexterity with that form of weapon. Gambling of all the types known to such gatherings was in progress along the railway. Fights were frequent, the ill-feeling being intensified by frequent passing of bottles.

How Yocum happened to fall into the slag-mixing pit is a mystery, as he was alone at the time. Robbery and Murder on Train.
While a Chicago and Alton excursion train from Bloomington, Ill., to Kansas City was crossing the Mississippi river at Louisiana, Mo., yesterday, a man on board shot and killed Marion Warner, of Secor, Ill., shot and wounded a woman, and robbed a third passenger. After a hard fight the man was arrested and placed in jail at Louisiana. He refused to give his name. Warner was asleep when the man came through the train asking people if they were armed. He awoke Warner and asked if he had a revolver. Receiving a negative reply, it is stated, he immediately shot Warner dead. The passengers were panic-stricken, and when the bandit demanded of a passenger whose name has not been learned that he empty his satchel, emphasizing his order with a flourish of his revolver, the passenger hastily poured out the contents of his satchel, and the hold-up took possession. The robber then fired at random, and one woman was shot through the arm. A boiler-maker from Jacksonville, Ill., attempted to arrest the man, but was knocked senseless. Other passengers rallied from their fright, and the man was overpowered and held until the train stopped at Louisiana, when he was turned over to the authorities and placed in jail. Claims were made by several that the hold-up man was drunk, and had boasted openly that he would kill somebody.

Today's Telegraphic News.

Conditions in Russia.
St. Petersburg, Aug. 7.—The torpedo boat which was sent in pursuit of the battleship Kniaz Potemkin, while she was in the hands of mutineers, has returned to Sevastopol. The torpedo boat is manned exclusively by officers who were supposed to be loyal to the government. The delay in the warship in getting back to port was caused by the fact that the engines were damaged. This is regarded as significant and in the general opinion shows that the spirit of revolution prevails among the officers of the navy to as great an extent as it does among the sailors.

The attorney general at Nishni Novgorod has obtained definite proofs that the police participated in the massacres that occurred there. The trouble has not yet been settled as roughs continue to harass the people. The mayor of the town has been summoned to St. Petersburg to make a report in regard to the riots to the Minister of the Interior.

Peasants in the government are pillaging the estates of land owners. It is estimated that they have carried away or destroyed 100,000 pounds of stores in the last few days. Peasants in the villages near Bialystok have likewise been engaging in attacks upon the land owners. They have threatened the proprietors of the large estate with death if their demands for money are not complied with.

Warsaw, Poland, Aug. 7.—Over thirty police officers have been assassinated here during the month of July. Some of the policemen were shot while others were stabbed to death. The assassinations followed the passing of the death sentence upon some of the officers by the revolutionary committee. The latest victim of the revolutionists is Lieut. Michaelowsky, who was shot at Sedlez, in Russian Poland, because he was active in having Polish revolutionists punished.

Peace Envoys.

Portsmouth, N. H., Aug. 7.—A surprise has been sprung by the State Department in ordering that the Russian envoys shall be given the precedence over the Japanese upon their arrival here. It had been the intention of Governor McLane and Admiral Meade, after the question of precedence had been decided by President Roosevelt, to receive the Japanese peace envoys first, and the "kicking over the traces" by the State Department, "as it is termed, came as a decided surprise. The department claims that a country having an Ambassador in this country should be ranked ahead of one represented only by a minister. Much disappointment is expressed over the failure of the envoys to arrive today. All preparations for their reception had been completed, but these will go over till tomorrow, when the programme as mapped out for today will be carried out. Word was received here early this morning that the Mayflower and Galveston had left Newport and would arrive here some time tomorrow morning. Just when M. Witte will arrive is not known. He is not expected, however, before late afternoon or early evening.

Newport, R. I., Aug. 7.—The yacht Mayflower and dispatch boat Dolphin with Russian and Japanese plenipotentiaries, convoyed by the cruiser Galveston, left Newport harbor at 8 o'clock this morning for Portsmouth expecting to arrive there Tuesday morning.

Yellow Fever.

New Orleans, La., Aug. 7.—Citizens, in meeting, have determined to raise a quarter of a million of dollars at once to hand over to Dr. J. H. White, who, beginning with today, heads the United States Board of Health and Marine Hospital service, having full charge of the entire health with military powers. Dr. White is dividing the city into small wards, over each of which a physician will have absolute control. The citizens committee already have seventy-thousand dollars on hand for Dr. White. The remainder is being raised by levies and assessments. A business man's rating is looked up in a commercial agency register and he is told how much he ought to pay. Then he is made to pay that sum. The war between marine militia of Mississippi and Louisiana is apparently at an end now that Secretary Shaw of the Treasury has assumed control upon the request of the city and state authorities and has put all fleets under the flags of the revenue cutter service. Captain Ross, head of this service, arrived here today. Gov. Vardaman, of Mississippi, has ordered his militia to Fontainebleau to guard to special detention camp, which citizens of Ocean Spring and other Mississippi coast towns have threatened to burn. Vardaman says there shall be no burning. Three additional cases are reported at Shreveport. There is a suspicious case at Bon Ami, near Lake Charles. Altogether up to six o'clock yesterday afternoon there had been a total of 533 cases and 105 deaths. There were 28 new cases and eight deaths yesterday. Archbishop Chapelle, who developed fever Saturday, is very sick.

New Orleans, La., Aug. 7.—Two deaths and two new cases were reported up to 10 o'clock this morning. Lawrence Carey, a prominent politician, is one of the stricken. The government refuses to fumigate on the ground of the mosquito theory which it accepts. The daily expenses in the fever situation here are three thousand dollars.

French Fleet in England.

Portsmouth, Eng., Aug. 7.—The French fleet of seventeen warships arrived in English waters today to return the recent visit made by an English fleet to France. The visit of the French officers and sailors will be made the occasion for a brilliant celebration. All preparations have been made to give the visitors a reception that will long be remembered. Members of the royal family will participate in the reception and King Edward and Queen Alexandra, accompanied by the Prince and Princess of Wales, are at Cowes to witness the ceremonies. Tonight the harbor will be brilliantly illuminated in honor of the visitors, and the crews of the French and British fleets will unite in celebrating. King Edward will witness the illumination. Secretary Shaw Visits President.

Oyster Bay, N. Y., Aug. 7.—Secretary of the Treasury Shaw arrived there unexpectedly upon a forenoon train from New York and went out to Sagamore Hill in a hired fly rig. It is understood that the secretary has come to talk with the President, among other things, about the yellow fever situation in New Orleans. The marine hospital service, which has taken hold of the work of sanitation, disinfection and quarantine on behalf of the government, is under the jurisdiction of the Treasury Department. It is believed that the secretary comes to discuss the problem of providing funds for the work, as the congressional appropriation made for the marine hospital service will be inadequate to pay the sudden extraordinary expenses incurred.

Yellow Jackets and Flying Hells.

Nutley, N. J., Aug. 7.—While Monroe Hicks was driving along Grant avenue he was surprised to see a swarm of yellow jackets come from a small wood and hover around his horse's head. He tried to drive the swarm off with his whip, but the wasps were not to be shaken off. Then the yellow jackets settled down around the horse's head and neck. The horse gave an agonizing squeal and let his heels fly at the wagon. Hicks and the seat fell out beside the road. When Hicks recovered his senses the horse was still making a target of the wagon, but he did not run away.

Mother in a Pitful Plight.

Chicago, Ill., August 7.—Poverty and misfortune forced Mrs. Phineas Mosha to surrender to a charitable institution one of her baby twins. She could not support both but felt she might care for one. When it came to deciding which she should relinquish the condition of the woman was pitiful. First she would kiss one good-bye, only to snatch it back and surrender the other. Finally she gave the care of the boy into the hands of the county and departed with the three-week-old baby girl. Later she returned and desired to exchange the babies, but was ordered away.

Opening of Yachting Week.

Cowes, Isle of Wight, August 7.—The week of yachting opened today with dull weather. Notwithstanding this fact, however, the roads were crowded with numerous excursion and pleasure boats as well as many private yachts. The most famous English and American yachts will compete in the races and the prospects for a successful week are bright. The presence of the king here has been responsible for bringing out a large crowd of fashionable people.

New York Stock Market.

New York, Aug. 7.—Steel issues of all classes, Vanderbilt stocks and Hill-Harriman shares were the strong features of the trading during the first hour. Brokers after handling orders for the largest and most active operations have been told that this will be a big week and it would be unwise for them to leave the city.

The market up to noon was influenced largely by increasing strength and activity displayed by U. S. Steel shares. The stock market developed increased strength in late trading and since noon there have been more record-breaking price movements.

Dyed Blue-Black.

Allentown, Pa., August 7.—John Jeronk, a dyer, employed by the Lotte Brothers Company, will be compelled to pass a long time dyed a deep blue-black from head to foot. He was working in a large tank filled with black dye, in which a lot of silk was being colored, and had occasion to pull the plug and let the hot dye run over the floor into a sewer, when he slipped and fell. When he was extricated from the floor he was painfully scalded and dyed a rich, deep black.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people who seek to profit, through stealing the reputation of remedies which have been successfully curing disease, for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it on all Dr. King's or Bucklen's remedies, as all others are imitations. H. E. BUCKLEN & CO., Chicago, Ill., and Windsor, Canada. Sold by E. S. Leadbeater and Sons.

Girl Assaulted.

Freeland, Pa., Aug. 7.—A shocking outrage which has greatly excited the village of Harleigh was committed there yesterday. Daniel Gallagher and James O'Donnell, of Audenried, while driving to Freeland, were called upon by a young woman to protect her friend. Stopping their horse, they ran in the woods, in response to the screams of a woman. A man who had assaulted her fled upon their approach, and, with the aid of a revolver, gained the dense forest. The point at which the assault was made is scarcely 100 yards from the village church. Two girls, aged 18 years each—Miss Myrtle Bittner and Miss Irene Spitzer—daughters of respected citizens, were walking toward Ebervale, when a well-dressed man approached and caught Miss Bittner in his arms. He flourished a revolver at Miss Spitzer, who attempted to assist her companion. There was no response to the screams of the girls until the team driven by Gallagher and O'Donnell appeared. The fiend had torn the clothing of the young woman to shreds in accomplishing his purpose. A crowd of armed citizens started in pursuit, but the forest is dense and extends across the mountain, and he was not found by nightfall.

Paterson's Missing Mayor.

Paterson, N. J., Aug. 7.—The police today sent out 2,000 circulars showing a picture of Wm. F. Belcher, Mayor of Paterson, who is wanted here to answer for his alleged robberies and forgeries, to the principal cities of this country and Europe. A full description of the much wanted man accompanied the pictures. People here generally are coming to the opinion that the absent Mayor has gone to Europe. If all the stories which can be heard now in regard to Belcher are true he must have secured an enormous sum of money. Nearly every man on the street makes the claim that he was one of Belcher's victims, and had made a loan to the missing Mayor. The number of men who say they were victimized would reach into the thousands. Action will probably be taken tonight at the meeting of the Board of Aldermen to depose the Mayor, and to offer a reward for his apprehension.

Honors to Secretary Taft.

Manila, August 7.—The principal feature of the ceremonies today in honor of Secretary of War Taft and the party of American visitors was the spectacular parade. Fully 10,000 men, including soldiers, sailors, marines, industrial and thirty provincial delegations were in line. Eighty bands participated and there were fifty floats. It took three hours for the procession to pass the reviewing stand. The parade was reviewed by Secretary Taft, Governor General Wright, Mayor General Corbin, Rear Admiral Train and Miss Alice Roosevelt. Only a halt was made by the procession and a golden plate was presented to Miss Roosevelt. A delegation of sugar planters waited upon Secretary Taft this afternoon to explain matters in connection with the sugar interests of the islands. Later a public reception was held by Gov. General Wright in the palace.
